

Interactive Display Solutions Powered by Showcase

Bring engagement to every surface.

A Complete, Plug-and-Play Interactive Package

BLUEFIN DISPLAYS

Commercial-grade, energy-efficient panels engineered for 24/7 operation

Built-in 10-point touch functionality

Available in a wide range of sizes and form factors

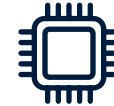

MULTITACTION HYDRA 2

Compact, high-performance PC optimized for interactive applications

Handles rich media, multitouch input, and real-time graphics with ease

Industrial reliability for continuous use in demanding environments

SHOWCASE SOFTWARE

No-code, content-driven software for building interactive experiences

Simple drag-and-drop interface—no CMS or developer required

Connects media, data, and storytelling into branded digital experiences

WHY CHOOSE THIS BUNDLE

Ready Out of the Box	Fully tested hardware + software integration—power up and start engaging
Scalable Across Markets	From retail and corporate to education, healthcare, hospitality, command & control, and public spaces
Fast Content Updates	Showcase enables instant, cloud-free changes with USB or local network sync
Reliable Performance	Bluefin and Hydra 2 hardware are built for continuous 24/7 commercial use
Brand-Ready Experiences	Showcase makes it easy to tailor visuals, navigation, and branding

IDEAL FOR

Retail / QSR: Product finders, menu boards, brand storytelling

Corporate / Education: Interactive presentations, digital lobbies, training

Healthcare / Transportation: Wayfinding, information kiosks, donor recognition

Hospitality: Guest engagement displays, concierge kiosks, digital directories

Command & Control: Real-time data visualization, dashboards, collaboration walls

Product Details: Hardware + Software Synergy

DESIGNED FOR COMMERCIAL ENVIRONMENTS.

Bluefin's interactive displays are engineered for durability, precision, and simplicity. With PCAP multi-touch technology, and commercial-grade construction, they are ready for any interactive installation.

KEY FEATURES

Touch Technology:

Projected Capacitive (PCAP) touch with 10-point responsiveness for smooth, intuitive interaction.

Rugged Construction:

Steel enclosures, edge-to-edge glass, and fanless operation ensure reliability in public or 24/7 environments.

Versatile Mounting:

Supports wall, kiosk, or table installations—ideal for retail, QSR, corporate, and educational use.

Fast Deployment:

Pre-calibrated and stocked for quick shipping, minimizing lead times for integrators.

Commercial Reliability:

Engineered for continuous operation with consistent touch accuracy and long lifespan.

POWERFUL. FLEXIBLE. EFFORTLESS TO USE.

MultiTaction's Showcase is an intuitive, no-code content presentation and engagement platform designed for touch-enabled environments. It lets integrators and end users transform static content into dynamic, interactive storytelling.

KEY FEATURES

Multi-Media Integration:

Combine videos, images, PDFs, and 3D objects into immersive, interactive experiences.

Intuitive Touch Navigation:

Enable gesture-based browsing with menus, filters, and categories for effortless exploration.

No-Code Customization:

Design and brand your experience using drag-and-drop templates—no developer required.

Offline Operation:

Run securely without an internet connection for reliable, fast performance in any environment.

Easy Content Updates:

Refresh media instantly via USB, LAN, or local drive—no specialized IT support needed.
